

## Unit 2 ID's

1. hindsight bias/ I knew it all along phenomenon
2. overconfidence
3. theory
4. hypotheses
5. replicate
6. operational definitions
7. case study
8. random sample
9. population
10. sample
11. naturalistic observation
12. Jane Goodall
13. correlation
14. scatterplot
15. experiment
16. double-blind procedure
17. placebo effect
18. experimental condition/group
19. control condition/group
20. random assignment
21. independent variable
22. dependant variable
23. frequency distribution
24. normal curve (draw it out exactly like you see it in your book)
25. mean
26. mode
27. median
28. range
29. standard deviation
30. z-score
31. sampling error
32. statistical significance
33. Institutional Review Board (IRB)
34. What are the ethical guidelines for human research? (Yes, write them out on the back of the card)
